

# SE Data – Clinical Audit Platform (CAP)

## Webinar

Questions and Answers  
Thursday 27<sup>th</sup> February 2020

**Attendees from** – NHS England, NHS Digital, NHS England region leads and various colleagues from all of the clinical networks.

### **Questions / Issues raised in the Webinar**

**Question** – Can SE data only providers register onto SE Data - CAP

**Answer** – For organisations that provide SE data but no other diabetes services, it would be easier for them to wait until the new SE CAP platform is ready. Alternatively, they can register by emailing [diabetes@nhs.net](mailto:diabetes@nhs.net) or wait a couple of weeks until they can access the platform themselves fully.

**Question** – Should providers obtain Caldicott Guardian sign-off?

**Answer** – Yes, it is recommended that if you have not previously registered then you need start the process asap as it does take some time. NHS Digital has published a guide for Caldicott Guardians. See link <https://digital.nhs.uk/data-and-information/clinical-audits-and-registries/national-diabetes-audit/information-for-caldicott-guardians-of-nhs-organisations>

**Question** – Does the data submitted need to include Digital SE providers?

**Answer** – Yes, the data should include Digital SE providers, where applicable.

**Question** – Can SE Data providers re-submit data, if they retrospectively spot errors?

**Answer** – If providers have submitted data earlier enough and subsequently spot errors then they can approach NHS Digital, who can support them in re-submitting. Also, you could ask NHS Digital to quality check the data, but it will be very difficult near the deadline.

**Question** – What period is the SE data collected for?

**Answer** – The data is collected for those who are offered / attended structured education between 1<sup>st</sup> January 2019 to 1<sup>st</sup> April 2020. (15 months)

**Question** – Is this SE Data process same for the wider submissions?

**Answer** – Yes, it is the same. But this would be a component with the other data fields. This was only to support those SE data providers only.

**Question** – Does this SE data CAP process prevent providers from submitting data without the NHS number?

**Answer** – Yes, the platform prevents entries without certain fields completed. It improves the quality, as seen in the demo if there is missing data then they will get a validation alert and be asked to submit the missing data.

**Question** – Is there a possibility of sharing a video / demo for providers?

**Answer** – NHS Digital will share something similar to the Demo / Video / on their website to support providers. Alternatively, NHS E&I will see if we can edit this webinar recording so that the demo can be shared.

**Date of Next MS Teams Meeting** - Wednesday 25<sup>th</sup> March at 2.30-3.30pm.
