Claire Kipling

E: claire.kipling@medtronic.com

M: 07775 007 275

This meeting is sponsored by Medtronic Neurovascular and will be provided free of charge

The course will be half a day involving didactic lectures, an imaging workshop and interactive discussion.

The aim is to provide education and training for doctors on stroke patient referral and acute stroke imaging including CT angiograms.

Lectures 14:00-16:00 (30 minutes each)

Coffee and welcome

1. Anatomy and pathology of intracranial vessels in Hyperacute Stroke
(Dr. Tufail Patankar)
2. Hyperacute Imaging of stroke: Diagnosis
(Dr. Dan Warren)
3. Update on Trials in Stroke
(Dr. Ahamad Hassan)
4. The correct referral criteria for intervention
(Dr. Marc Randall)

Workshop 16:00-18:00

Interactive clinical scenario and imaging session
(IMAC workstations – two hour session)
