Overview

Who am I? Who are we?

Supporting community provider SSNAP participation

- ✦ Workshops
- ✦ Help note creation
- ✦ Working with CCGs

East Midlands

Strategic Clinical Networks and Senate

Collaboration

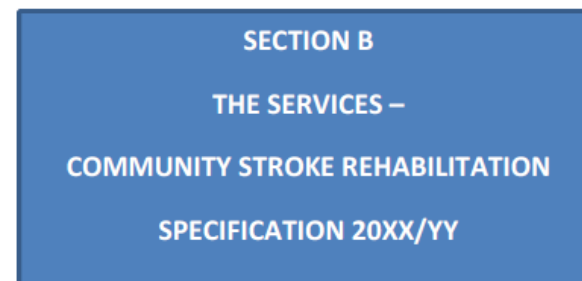

Our role: to ensure provision of an evidence based stroke care pathway for all stroke survivors in the East Midlands

Focus: Community service development

- ✦ CCG support
- ✦ Measuring effectiveness – Data
- ✦ Multidisciplinary team working – Education

Evidence based specifications

- ✦ Co-produced specifications
- ✦ Review of service provision
- ✦ Gap analysis

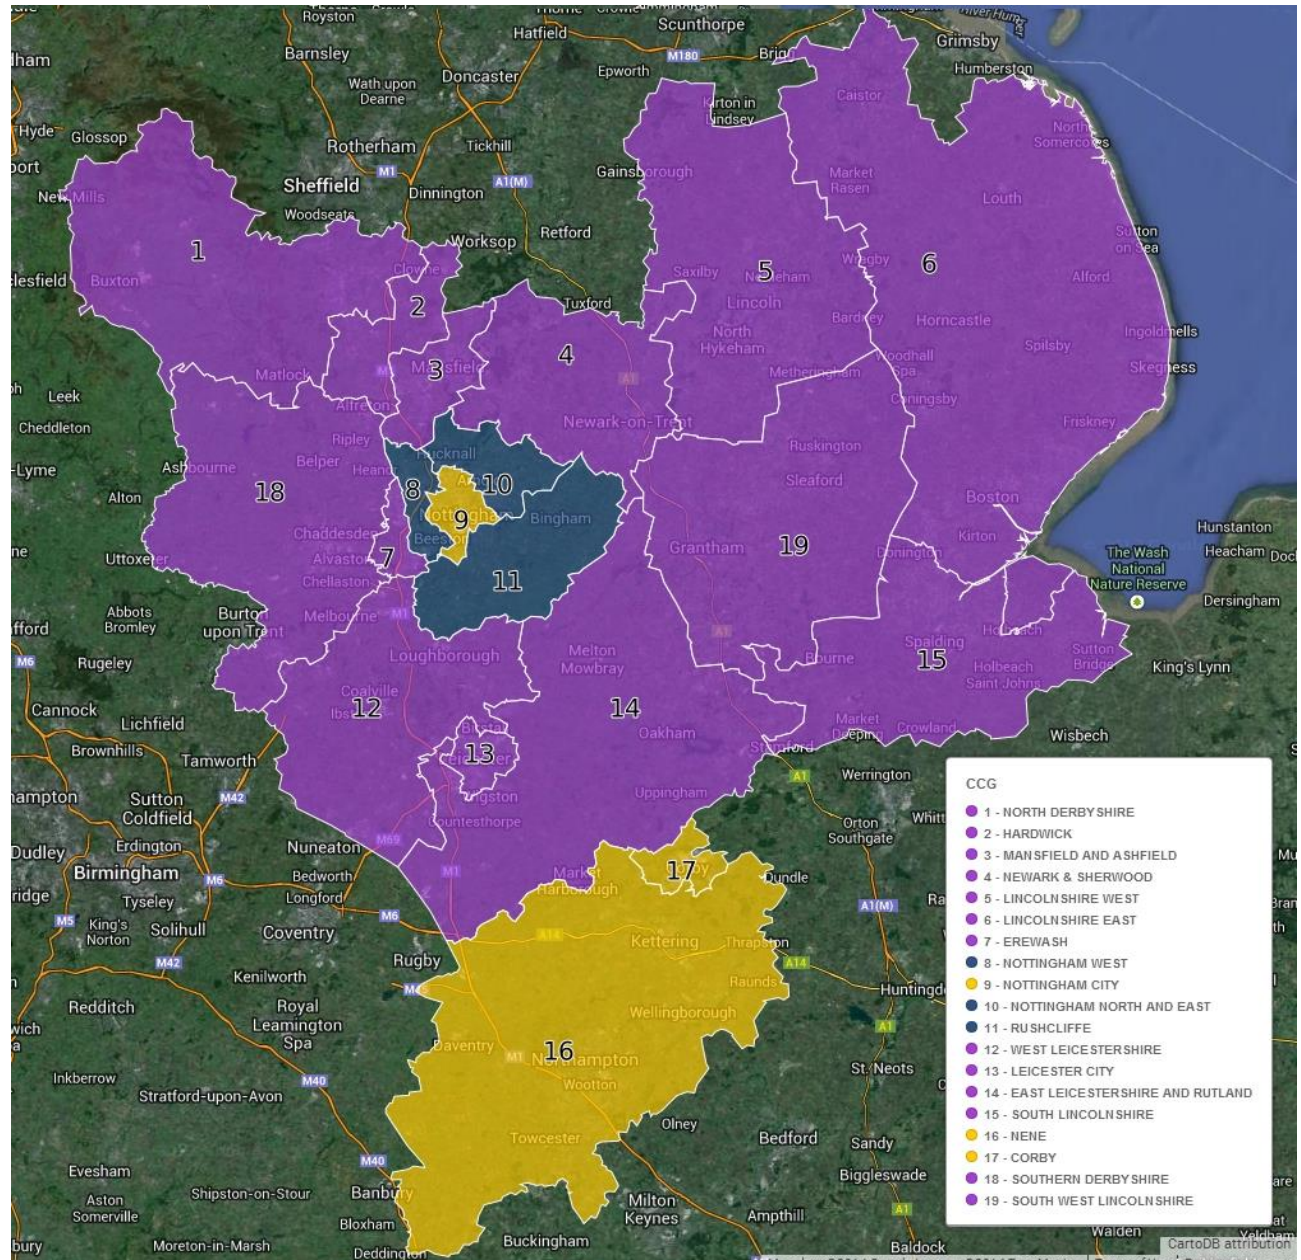

This map visually demonstrates the provision of stroke rehabilitation services across the East Midlands. Stroke rehabilitation is a programme supported by the EMAHSN.

Blue – stroke early supported discharge service provided, community stroke rehab service provided but no six month reviews

Purple – stroke early supported discharge service provided, but no community stroke rehab service or six month reviews

Yellow – stroke early supported discharge service, community stroke rehab service and six month reviews all provided

Workshops

- ✦ 3 dedicated half day sessions
- ✦ Review of all community SSNAP questions
- ✦ Discuss interpretation of questions
- ✦ Refer to RCP guidance
- ✦ Agree consistency of data input
- ✦ Support technical issues with data transfer

Issues arising

- ✦ Quantifying therapy time (adapting current methods of data collection, double visits)
- ✦ Difference between ESD & CST
- ✦ What is and isn't Psychological support (mental health nurse?)
- ✦ What about the rest of the multidisciplinary team?
- ✦ How will commissioners interpret the information?

Help Notes

Useful for teams new to participation in national audit/
prior to SSNAP registration

Teams feel they have some control over how and why
data will be entered and interpreted

Develop a network of support

Commissioner support

Review and refresh performance metrics for ESD and community stroke teams

Align with SSNAP

Review data use by CCGs for planning purposes

Facilitate use of RCP SSNAP reports
