Claire Fry	Dementia, Mental Health Team, Operations & Information, NHS England
<b>Apologies:</b>	
Corrinne McDonald	Mental Health Commissioning Manager, Calderdale CCG

	Item
<b>1</b>	<p><b>Welcome, Introductions and apologies</b></p> <p>Alix welcomed everyone to the meeting and introductions were made</p>
<b>2</b>	<p><b>Background and Scene setting</b></p> <p>Penny presented some slides to set out some context, what has happened to date and some suggestions around the proposed work towards avoiding unnecessary hospital admissions. Penny's slides will be circulated and can be accessed <a href="#">here on the clinical network website</a></p>
<b>3</b>	<p><b>Dementia national pilot opportunity</b></p> <p>Claire Fry presented slides in relation to the National STP initiative. West Yorkshire and Harrogate are invited to join as a 3<sup>rd</sup> STP (ICS)</p> <ul style="list-style-type: none"> <li>• A pilot project implementing specific initiatives at an STP level to reduce unnecessary admissions to and length of stay in hospitals for people with dementia, and ultimately improve outcomes for patients and carers.</li> <li>• The initiatives implemented will aim to reduce admissions to and length of stay in hospitals for people with dementia, targeting care homes and individual residents for bespoke support across the STP.</li> <li>• A focus on care homes is key, however we anticipate some areas of work might extend</li> </ul>

	<p>beyond this parameter.</p> <p>Claire presented a slide with some examples which might help the group to decide on an area of work to focus on; these are on slide 5 but are not an exhaustive list.</p> <p>Projects will run from now until March 2020</p> <p>There is some funding available and access to other resources for example some analytical support can be accessed through Claire and the national team. Funding can be used with some flexibility</p> <p>Claire's slides will be circulated and are available <a href="#">here on the clinical network website</a></p>
4	<p><b>Discussion:</b></p> <ul style="list-style-type: none"> <li>• What are people doing already that fit with the National pilot aims and could shared</li> </ul> <p>A discussion followed with the group and there were lots of examples where it was felt there could be work that would be mutually beneficial across the West Yorkshire and Harrogate footprint although it was widely acknowledged that it is difficult to choose one thing that every area would benefit from because of different service configuration. Challenges around trying to separate Dementia from Mental Health services.</p> <p>Some areas the group talked about:</p> <p>Red Bag Scheme roll out in Care Homes</p> <p>'Home First' - supporting to the person living with dementia to stay at home whenever possible and avoid unnecessary care in hospitals, care homes</p> <p>Mental Health outreach to Care Homes, Investment in dedicated psychiatry post</p> <p>Dementia support – piloting dementia support in the community provided by a 'nursing assistant' mentored by the Admiral Nurse – dementia support worker aligned to each GP practice.</p> <p>Care navigation and integrated care</p> <p>Dementia care mapping</p> <p>DeaR GP and DiADeM tools promote the use in care homes</p> <p>Focus on Domiciliary Care training for staff with limited skills</p> <p>Work with Ambulance service crews more aware of Dementia and not taking them in to hospital where possible</p> <p>It was agreed that a focus on reducing the number of 'Transitions' between services would be a good way to look at this as it is at the 'transition' point where most 'crisis' happens. It would be fine for localities to choose different 'transition' points to improve in relation to differences in population and/or service configuration</p> <p>Data – we need to look at what data we can get access to particularly looking at A+E admission's/visits of people with dementia coming in from care homes – Claire agreed to ask National team if they can help with that. Also if we can get any access to any of the Dr Foster data that exists.</p> <p>Advanced Care Planning was another area for a possible project to look at care homes and ensuring ACP are put in place – An example of a scenario used by Wakefield CCG in a recent workshop will be circulated with these notes – along with some other dementia related scenarios used at the workshop.</p> <p>In Doncaster, the Older People's Mental Health Liaison Service are screening everyone over the age of 75 years who attends A&amp;E, using a locally developed triage tool. The Liaison service has forged strong links to the community physical health care team (called RADAR) and through their</p>

intervention has been able to discharge around 2/3 of patients who would previously have been admitted.

It was also suggested there may be some learning from LD services looking at things like Positive Behavioural Support.

- Any themes from 10<sup>th</sup> May workshop

Intensive Home Treatment (Living Well/Supporting Well/Dying Well) - Supporting people in their own home

Training – use the recently developed audit tool from the ‘what works study’

- Do we go ahead with the Pilot

There was broad agreement that the pilot would be a positive development and the group agreed to progress to the next stage of this work, with a launch event on 22<sup>nd</sup> August, 9.30-11.30 at Douglas Mill, Bradford where there will be further discussions about the focus for this work.

Links are currently being explored to Urgent and Emergency Care work stream of STP (ICS) with Penny Kirk and Chris North attending a meeting of the U+EC leads group on Monday 23<sup>rd</sup> July.

Alix asked the group to consider what 3 ‘interventions’ have been beneficial in reducing transitions for people with dementia and/or for improving the quality of transitions and which could be implemented across a wider footprint.

**For action ALL:** Please send your suggestions to [colinsloane@nhs.net](mailto:colinsloane@nhs.net) by **Wednesday 8<sup>th</sup> August 2018**.

#### Next Steps:

- 22<sup>nd</sup> August meeting with Prof Alistair Burns – National Clinical Director - Dementia and Older Peoples Mental health

The group agreed to go ahead with this meeting and use it as an opportunity to discuss areas of work further based on the 3 ‘interventions’ ideas submitted. It will also be an opportunity to discuss with Alistair any points of clarity in relation to the National pilot

- Membership of steering group

Additional membership needed from:

Local Authority reps

Care Home Sector

Carers – possibilities Carers Leeds/TIDE/Fatima Khan Shah (STP lead for unpaid carers)

People Living with Dementia – or an organisation to represent the views? Alzheimer’s Society?

Any other suggestions send to [colinsloane@nhs.net](mailto:colinsloane@nhs.net) and [alix.jeavons@wakefieldccg.nhs.uk](mailto:alix.jeavons@wakefieldccg.nhs.uk)

6	<p><b>Any Other Business</b></p> <p>There was no other business</p>
<p><b>Date and Time of the next meeting: 22<sup>nd</sup> August 2018 - 10.00am to 12.30pm* - Learning Area 1, Douglas Mill, Bradford, Bowling Old Lane, Bradford, BD5 7JR</b></p> <p>*room currently booked 10.00 to 12.00 we are looking to extend to 12.30 to give us more time for discussion</p>	

ACTIONS		
Item No	ACTION	WHO
2	Slides will be circulated and available on the website	Colin Sloane
3	Slides will be circulated and available on the website	Colin Sloane
4	Ask National team if they can help source data for A+ E admissions from a care home. Also if we can get any access to any of the Dr Foster data that exists.	Claire Fry
4	Wakefield CCG Example scenario's to be circulated with notes.	Colin Sloane
4	Everyone to think about what 3 'interventions' they would put forward to work on at this level – to be sent to <a href="mailto:colinsloane@nhs.net">colinsloane@nhs.net</a> <b>by 8th August 2018</b>	ALL
5	Additional members for steering group to be approached and invited to next meeting	Colin Sloane
5	Any other suggestions for membership send to <a href="mailto:colinsloane@nhs.net">colinsloane@nhs.net</a> and <a href="mailto:alix.jeavons@wakefieldccg.nhs.uk">alix.jeavons@wakefieldccg.nhs.uk</a>	ALL
