## Introduction

Back [to CONTENTS](#)

Below is a short list of resources of APPS, web links, videos, animation, role models, inspirational speakers etc.

These are included to help provide advice, support and encouragement to people with autism and their parents, carers, professionals and those interested in autism.

Some resources are provided in relation to COVID-19 also.

There are many, many more resources available online and elsewhere for you to find and review. As one example of a short YouTube video I found by accident, almost, is this ;

["Easy-to-Use Calming Strategies for Autism"](#)

by Ryan Judd (MA, MTC Board Certified Music Therapist), a music therapist. His [YouTube channel is here](#).
