

Putting the learning to practice – Louise Potter, ADP participant

Background –

- South Yorkshire ICB commissioner, Sheffield place with some ICB wide remit,
- Fairly new to PEOLC and the NHS (as of 18 months),
- Previously - local authority commissioner for vulnerable people and data analyst for 15 years
- Strengths / experience in data, consultation, ReSPECT, leadership, governance, commissioning.

ADP has

- Provided an insight into the NHSE approach to PEOLC e.g. guidance, current projects,
- Provided an opportunity to share ideas, problem solve, consider current and future strategic direction
- Helped me to build up a network of commissioning / transformational leader colleagues across the country

Putting the learning to practice – Louise Potter, ADP participant

Current projects – ICB strategy, benchmarking, healthwatch survey, education project, ReSPECT, homelessness and bereavement

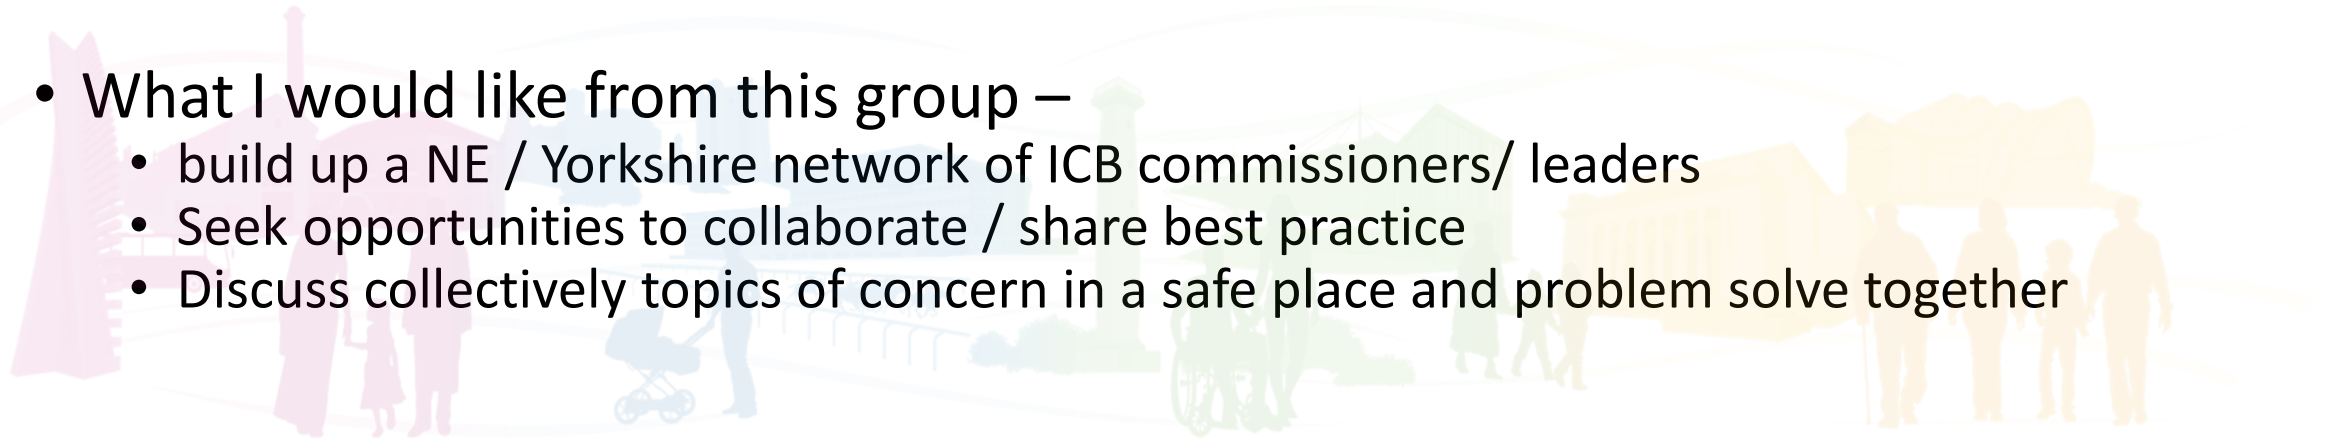

Work influenced by ADP / NHSE guidance

- ICB PEOLC Strategy and transformation board
- Public engagement & co-production – Healthwatch survey, peer leaders & vision
- Benchmarking against the ambitions
- Developing an education training course for primary care
- Data dashboard
- Strategy development

Mentoring and next steps

- Offer to the NE and Yorkshire SCN
 - I'm not the expert, but I can share ideas and offer an opportunity to talk through specific work projects, applying the learning from the ADP and my experience.
 - Time limited – total time available is 2 hours per month (including this group). Happy for this to be a group discussion.
 - Support to work through the ICB approach to PEOLC, the handbook, NHSE guidance and share learning from the ADP.
 - To share, peer support, explore / trouble shoot, listen & guide.
 - Link people into others / peers who may be experiencing a similar challenge or project / priority and with NHSE.
- What I would like from this group –
 - build up a NE / Yorkshire network of ICB commissioners/ leaders
 - Seek opportunities to collaborate / share best practice
 - Discuss collectively topics of concern in a safe place and problem solve together

- Where do we feel confident?
- What are your key challenges?
- What are you most worried about?
- How can we learn and work together?
