

Yorkshire and the Humber EIP Network – 15.11.18

Table Top Discussions Summary

FUTURE TOPICS AND PRIORITIES TABLE TOP DISCUSSION FEEDBACK

The attendees were asked to choose from the list below up to 3 themes that they would like the Yorkshire and the Humber EIP Network to focus on in 2019/20:

- Perinatal MH
- Substance Use
- Youth/Student MH
- Cultural Factors
- IT/Social Media
- Peer Support
- Vocational/Education Support
- Physical Health
- Psychological Therapies
- Medication
- Trauma

The attendees scored the focus themes as follows, and also made some additional suggestions:

Perinatal MH	2
Substance Use	5
Youth/Student MH	2
Cultural Factors	3
IT/Social Media	5
Peer Support	5
Vocational/Education Support	4
Physical Health	0
Psychological Therapies	3
Medication	3
Trauma	8
<u>Other Suggestions:</u>	
Caseload Size	2
EIP ETHOS	1
Staffing Shortages	1
Social Support - Standard?	1
Early detection/education programme	1
SCM/PD pathway within extended assessment/FEP pathway	1

The attendees were also asked to indicate the top 3 priorities for their teams for the following year, in order of importance. The results collected per table are outlined below:

- 1) Caseload size
- 2) Substance use
- 3) Medication

- 1) Medical cover
- 2) Support workers
- 3) IPS

- 1) Streamlined, efficient systems
- 2) Cultural representation/sensitivity, links in community resources
- 3) Holding on to the values of the EIP Declaration
- 4) Assessing/getting to know people once taken on (structured process for care coordinators)

- 1) IT/Social Media
- 2) Structured clinical management pathway with FEP pathway for those who may not meet diagnostic FEP.
- 3) What do we do without investment?"

- 1) IPS (including benefits support)
- 2) Medical cover

- 1) ARMs/Trauma - CSE/stovewood
- 2) Youth & student MH - social media, engagement and identification
- 3) ARMs

- 1) Caseload size
- 2) Substance use
- 3) Medication

- 1) ARMS
- 2) Substance misuse
- 3) IT/Social Media

- 1) ARMS - Guidelines
- 2) Outcomes/research
- 3) Threats to collaboration: out of hours and agile working

- 1) Changing to a new electronic system
- 2) Medical cover
- 3) Implementing family work

- 1) Total lack of CBTp in the team, only one person delivering. Need another 1.5. Would CBT be used for ARMS and the CBTp be used for FEP?
- 2) Physical Health - we collect the data and have the "healthy" discussions with SU but what about the fact they are still so over weight because of the medication?
- 3) No one in the team delivering vocational support. This has been outsourced to Richmond Fellowship.
