	Dewsbury and District Hospital			
	Pinderfields Hospital			

LMH Network: Purpose

- Work **collaboratively** across the Y&H localities to support CCGs and Providers to prepare for the release of funding from 17/18 onwards to expand/improve/develop liaison services to meet national standards
- Collate and share a range of **good practice models** in liaison including national pilots and work with the WY (and other national) Vanguard sites, ensuring learning and models are shared across the patch
- Develop **tools and guidance** as necessary to support local understanding of the requirements, preparing for delivery, assessing baseline and gap analysis and understanding demand
- Develop a process to undertake **economic evaluations and evidence** of a range of liaison services which includes patient and public review of effectiveness
- Unite individuals and partners across Yorkshire and the Humber in a **common purpose**
- Promote **common understanding, joint working and prevent duplication**
- Work collaboratively to **build capacity and capability** for quality improvement in services.

LMH Network: Aims

- Understand the Yorkshire & Humber (Y&H) geography baseline of liaison services meeting the Core 24 minimum standard, including concerns, risks and good practice
- Ensure clinical expertise in liaison, both adult and child & adolescent, drives the programme of work and adds appropriate local narrative to data
- Using a regional (North) liaison mental assurance framework which includes appropriate links to the Urgent and Emergency Care, Primary Care and wider Crisis Care programmes, develop this into a bespoke framework for Y&H for local STP use
- Troubleshoot problems and provide Y&H support and feedback to the North region via FAQs
- Provide an expert liaison mental health clinical and advisory voice to the Y&H area, the three STP Programme Offices, the Y&H Mental Health & Dementia Programme Group and any associated sub-groups / task and finish groups which may be established.

LMH: Watermarks of a Membership Model of Working

- Information exchange
- Networking
- Sharing good practice
- Coaching for service development
- Sharing resources e.g. job descriptions, operational policies etc.
- Identifying common problems and seeking solutions
- Areas with strengths and/or expertise will offer support to areas with developmental needs
- Education
- Dissemination of information and communication from the National Team.

Y&H LMH Network

First meeting – 9th December

(Minutes available on tables.)

- Clinical Network Overview
- Aims & Objectives
- Yorkshire and the Humber Baseline Position – Survey undertaken in May 2016
- National Update – Discussion regarding Transformation funding; FAQs produced.
- Workshop: Developing the Local Vision for Liaison Service

Y&H LMH Network

First meeting – 9th December

Workshop: Developing the Local Vision for Liaison Service – Tensions & Concerns:

- Lack of appropriate accommodation in hospitals
- Process driven targets potentially compromising clinical standards
- Workforce, Staffing Resources and Skill mix across LMH teams
- Lack of vision in the national direction i.e. emphasis only placed on A&E, performance management, diverting resources from other parts of the systems
- Difficulties in engaging with the acute trust
- Funding and education in the acute trusts.
- Concerns about maintaining specialisms i.e. older adult and adult and ensuring core 24 is meaningful based on local need.

Y&H LMH Network

First meeting – 9th December

Workshop: Developing the Local Vision for Liaison Service – Creative Solutions:

- Going beyond the crisis and considering prevention, care home liaison etc
- Community solutions paired with an A&E service
- Provision of training & education to the acute trust
- Considered how assistive technology could better link systems to identify frequent flyers and share information, greater access to IAPT
- Individualised suites of rooms in the trust
- General information sharing.
- Appointing champions for Perinatal Mental Health, Learning Disabilities and CAMHS and working collaboratively, but not fully integrated, so as to not lose specialisms.
- Working across services via STPs and Networks.

Plan for the Afternoon & Reflections on the Morning

**Dr Katie Martin, LMH Clinical Advisor, Yorkshire and the
Humber Clinical Networks and Consultant Liaison
Psychiatrist, Tees, Esk and Wear Valley NHS FT**

This Morning...

- National Plans & Progress
- Commissioner Perspective
- Sustainability modelling for liaison services
- Liaison psychiatry outcome measures
- Developing Skills & competency in liaison
- Workshops:
 - 1) How to develop a strong liaison transformation bid – learning from Wave 1
 - 2) What's next for successful Wave 1 sites – implementation support
 - 3) Understanding the characteristics of smaller liaison services without the demand for Core 24 – discussion group supporting development of national guidance

This Afternoon...

- Overview of Bids
- What next? - Discussion
- Any other business
- Future meetings

Overview of the Bids - Summary of the Region

**Dr Katie Martin, LMH Clinical Advisor, Yorkshire and the
Humber Clinical Networks and Consultant Liaison
Psychiatrist, Tees, Esk and Wear Valley NHS FT**

Acute Hospital Urgent & Emergency Mental Health Liaison Services (Adults and Older Adults) Transformation Fund - 2017/18 & 2018/19

Acceptance of the one-year transformation pump prime funding constitutes a local commitment to the following:

- recurrent funding of the newly-expanded service in future years beyond the year of receipt of the transformation funding;
- provision of a 24/7, on-site, distinct service to an acute hospital with a 24/7 Emergency Department within one year of receipt of the transformation funding;
- provision of a 1 hour response to emergency referrals and 24 hour response to urgent ward referrals within one year of receipt of the transformation funding;
- staffing of the liaison service at or close to the recommended levels for core 24 as per bid.

Outcome of Wave 1 Bids

CCG/TRUST/MH TRUST	YEAR ALLOCATED
Mid Yorkshire Hospitals Trust (SWYFT)	17/18
Sheffield (NG)	17/18
York (TEWV)	17/18
Leeds (LYPFT)	18/19
Rotherham (RDaSH)	18/19
C&H (SWYFT)	18/19
Hull (Humber MHFT)	18/19

Summary of key elements of successful bids

- Clear, unambiguous CCG sign up to recurrent funding
- Consultation/ direct input from liaison clinicians
- Explicit statements about aims/ plans for additional funding
- Data evidencing current/ projected savings from LMH
- Commitment to collect EB outcome measures
- Robust timelines and plans for next 24 months
- Reasonable balance between current investment & requested £
- Rationale for any differences explained clearly
 - e.g. developing advance practitioner/ nurse consultant roles
- Highlighting strengths of current model
 - e.g. incorporating existing D&A services/ expanding links with primary care/ integration with IAPT for MUS

Discussion: What next?

What Next?

- Sustainability & Transformation Programmes
- Wave 1 sites – 2017/18
- Wave 1 sites – 2018/19
- Planning for Wave 2 sites
- Developing & Supporting those services not applying/successful for Wave 1 & 2

Closing Remarks & Any Other Business
