

Yorkshire and the Humber Liaison Mental Health Network

Table Top Discussions on Waves 1-3

Summary Feedback

1. What has worked?

- Working collaboratively with CCGs and stakeholders
- A positive can do attitude
- Developing relationships
- Having committed medical leadership

2. What hasn't worked

- Investing in a single point of access has left little movement for liaison services
- Concerns RE: resource when crisis hub acute pathway is developed – how do services remain a discreet liaison service

3. How do you link to STPs?

- By participating in the mental health network
- By being present at meetings
- By providing support for smaller services across the STP region
- Developing relationships on an STP footprint

4. Any myths for debunking?

- Liaison mental health services are a positive thing for patients and liaison teams – they are not a bad thing!
- Thinking outside of the box – it does work and sometimes makes delivery doable!
